

We're now part of **MobilePatrol™**

FREE on iTunes
and Google Play!

The all-new smartphone app keeps your sheriff's office on the cutting edge of communication, ensuring the community stays safe and informed.

All-new innovative features

In our second generation app we are providing improved registration for VINE® (Victim Information and Notification Everyday) so you can be notified about the release of any inmate in custody. We have also enhanced the Emergency Alerts feature to provide unlimited information, including photos of missing people or persons of interest. This improvement helps us provide important information straight to your smartphone in the event of an Amber Alert, manhunt, severe weather or other emergency situation. You will also have the ability to post items to your Facebook wall to help spread the news.

Cutting-edge communication

With this app you have easy access to an impressive list of information and features (where available):

- Inmate information—including name, address, photo, and specific charges
- Victim notification of offender releases
- Emergency alerts with push notifications
- Warrants (including child support)
- Most wanted
- Sex Offenders
- News
- Crime Tips
- Sheriff's directory with in-app calling
- Facility location with map and directions
- Attorneys' directory
- Bail bonds directory
- Sheriff's Facebook
- Sheriff's Twitter
- Tell-a-Friend
- ...and more
